Telecommunication Services	2.4%
Materials	1.3%

How risky is it?

The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

Pender has rated the volatility of this fund as medium.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the section titled "What is a mutual fund and what are the risks of investing in a mutual fund" in the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Class B units of the fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

YEAR-BY-YEAR RETURNS

Performance information for this class is not available because it has been in operation for less than one completed calendar year.

BEST and WORST 3-MONTH RETURNS

Performance information for this class is not available because it has been in operation for less than one completed calendar year.

AVERAGE RETURN

Performance information for this class is not available because it has been in operation for less than one completed calendar year.

Who is this fund for?

You should consider investing in the fund if: You are seeking exposure to small cap equities; You are seeking capital growth over the long term; and You have a long-term investment horizon and are willing to accept medium investment risk.

A word about tax

In general, you pay income tax on your share of the fund's earnings and on any gains you realize from redeeming your investment. The amount of tax depends on the tax rules and rates that apply to you, and whether you hold the fund in a registered plan, such as an RRSP or TFSA.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Class B units of the fund. The fees and expenses – including any commissions – can vary among class of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. SALES CHARGES

Your representative is able to charge you up to 5.00% of the amount you buy (up to \$50 on every \$1,000 you buy). You and your representative decide on the rate. This amount is then deducted from the amount you buy and it goes to your representative's firm as a commission.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the fund's returns. The fund's expenses are made up of the management fee, administration expenses, performance fee and trading costs. The Class B annual management fee is 2.00% of the class' value. The Fund will pay to the Manager a performance fee in relation to Class B units that is equal to 20% of the amount by which the return of the Class B units exceeds the return of the Fund's benchmark, for the period since the performance fee was last paid, subject to a high-water mark. The Fund's benchmark is the S&P/TSX Composite Index (or its successor indices, as applicable). The performance fee is calculated as described in the Simplified Prospectus on a weekly basis and paid annually. Because this class is new, operating expenses and trading costs are not yet available.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and your representative's firm provide to you. Pender pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The trailing commission is equal to 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. OTHER FEES

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	You may be charged up to 2.00% of the value of units you sell or switch within 30 days of buying them. This fee goes to the fund.
Switch fee	Your representative's firm may charge you up to 2.00% of the value of units you switch to another class of the fund or to another fund managed by Pender.

What if I change my mind?

Under the securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus or Fund Facts document; or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you will also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document; or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
