## Pender Canadian Opportunities Fund

The Pender Canadian Opportunities Fund is focused on finding undervalued, unfollowed Canadian equities with no market cap constraints. The manager focuses on uncovering market-leading businesses with a distinct competitive edge that have the potential to generate long-term capital appreciation. This is sometimes reflected in a higher weighting in the technology sector, with very little resource exposure generally. After deep fundamental analysis those businesses with attractive economic characteristics are purchased at a discount to our estimate of intrinsic value to build out this concentrated portfolio.
